

Company Profile

Towards Excellence in Sustainability

Who We Are

terra**vertis** is a Corporate Social Responsibility (CSR) and Sustainability consulting provider of a comprehensive and diverse set of professional services to a broad client base. Since establishment terra**vertis** has emerged as a leading environmental and sustainability consultancy with a reputation for timely, accurate and cost-effective solutions to environmental problems. We provide environmental management advice and auditing services to some of the region's leading corporations, and we have significant expertise relating to the built environment sector in general.

Beyond technical solutions, our skills include sustainability strategy and planning, a full range of environmental services, capability building, stakeholder engagement, supply chain, reporting and communications amongst many other specialist sustainability topics.

terra**vertis**' consistent, innovative, and client-focused delivery of services has allowed it to establish itself as one of the region's premier sustainability consultancies. As a full service engineering and project management consultancy, terra**vertis** partners with clients in all sectors and regions to identify their unique needs and critical challenges in order to deliver truly value-enhancing results.

terra**vertis** is a member of the UN Global Compact (UNGC) and the UNGC's Caring For Climate: The Business Leadership Platform.

Our Mission & Vision

At terra**vertis**, it is our mission to be a leader in the provision of value-added programs that are tailored to the requirements of our clients. Our success is achieved through a balance of technical excellence, individual growth, creativity and corporate leadership. We strive to become the leading provider and model in Sustainability, Consulting, and Training, with an emphasis on excellence and competence in the development of people, organization, society and nation.

We encourage our stakeholders to be socially and environmentally responsible and promote an integrated approach to protecting our planet by conserving energy, saving water, and reducing waste. We work closely with our clients to develop cost effective sustainability initiatives with the aim of achieving a healthy balance between environmental protection and economic prosperity. We hope to make sustainable living a common practice among individuals, businesses and communities throughout the world.

Our Approach

Our commitment to our clients' success and to our own standards is what sets terra**vertis** apart as a world-class professional services firm. Ultimately, we strive for the long term satisfaction of our clients by viewing our success in theirs. Our professional teams understand that custom solutions yield the greatest competitive advantage and value. To achieve this, our staff teams work closely with our clients to develop a clear scope of work, and maintain an interactive relationship throughout the execution of a project - keeping the client informed of the progress, constraints, successes, deviations, costs and critical decision points. Such superior communication, we believe, is integral to effective project management, and ensures that our end results meet and exceed the expectations of our clients.

While terravertis excels in the development and execution of work plans, we do understand that it is not always possible for one organization to do everything. In the best interest of our clients, we believe strongly in teaming up with specialist firms that would enhance our ability to meet the needs of specific projects. Our experience in working with specialized contractors, environmental consultants and other engineering firms has yielded impressive results. As a philosophy, rather than entering rigid third-party joint ventures, we select our partners based on the specific objectives of a given project.

What We Do

Our services cover Training and Consultancy Programs. To effectively customize its services to each client, terravertis offers more than one service based upon the size and scale a client's facility, operations, resource consumption and needs. For each project we put together a hand-picked team with a proven track record in the client's industry sector, region and the issues and initiatives that are most pertinent to the client.

terravertis provides the following services to manage social and environmental risk and enhance the social and environmental performance both within and outside our clients' organizations:

Corporate Sustainability and Responsibility Consulting Services

Corporate Sustainability and Responsibility program of an organization is expected to serve multiple objectives. And as corporate sustainability initiatives take on an increasingly central role in companies' operations, the need for policies and strategies to efficiently manage and report on the large data associated with annual sustainability reports is growing. To help manage the large body of data associated with your company's Corporate Responsibility, terravertis offers services range from design and formulation of policies and strategies within Corporate Responsibility and Sustainability, to implementation and communication. Our services include:

- (CSR & Sustainability Audits & Reporting
- (CSR and Sustainability Training and Capacity Building
- (Development of CSR and Sustainability Management Strategy
- (Stakeholder Engagement Management
- (Global Compact Audit and Reporting
- (SA 8000, ISO 14000 Audits
- (Preparing for the ISO 26000 for Social Responsibility

Environmental Leadership Consultancy and Training

Our principal staff has years of experience providing innovative consultation and working with environmental programs. We have also developed a network of respected environmental professionals that are prepared to assist us in providing expertise and assistance in almost every sector or environmental issue you can name. We have relationships with both regional and local waste handlers, recycling companies, and even 'green' suppliers in order to allow us to handle all of your environmental needs:

- (Environmental Management system
- (Environmental Impact Assessment
- (Risk Assessments
- (CDM, and Renewable Energy Feasibility Studies and Consultancy
- (Air, Noise, and Soil Assessment
- (Ecological Impact Assessment
- (Biosecurity Feasibility Studies Consultancy
- (Socio-economic Impact Assessment
- (Waste Minimization Consulting
- (Green Business and Environmental Strategies Consultancy
- (Energy Efficiency and Climate Change
- (Waste Resource Management

Why is it Important

Sustainability and CSR are becoming increasingly important as organizations begin to rely on sustainable factors when defining their agendas aspirations, and, most importantly, the broad goal to which they are held accountable. terra**vertis** helps its clients articulate and develop CSR and Sustainability strategies that are aligned with their business goals and objectives. We specialize in identifying a strategic focus, prioritizing for the best possible results, economically, socially and environmentally. One of the issues organizations find most challenging is the effective communication of CSR and Sustainability initiatives to both internal and external stakeholders. A non-financial report is a common vehicle for such communications, but one that many companies struggle with terra**vertis** a strong communications support package that helps companies measure the impact and success of their communication.

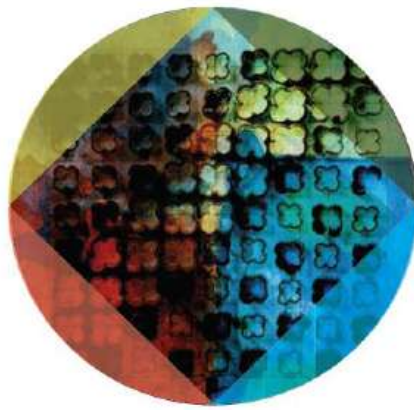

The Value We Add

- (Improving and sustaining the reputation of our clients at a local, national and international level
- (Helping clients understand, manage and reduce environmental and social risks and the associated costs
- (Increasing our clients' eligibility and access to capital from international finance institutions, by ensuring compliance with international best practices
- (Improving employee relations and helping clients become the employer of choice
- (Helping to develop enabling environments by assisting improved institutional frameworks

The Terra Difference

Because terra**vertis** provides specific and independent technical advice, we are able to achieve a broader view of environmental and social projects and operations, and balance the needs of businesses, communities and other stakeholders. We can also adapt and tailor our services to guarantee clients a tailored service that's customized to the specific conditions of their projects.

Please contact us at s.tayeh@terravertis.com or info@terravertis.com to request a proposal specifically designed to meet your organization's training, development or related services needs.
